

Mixbook
FOR EDUCATORS

A STRESS-FREE YEARBOOK

Capture every great memory from the school year with a custom Mixbook yearbook. With Mixbook, there are No Up-Front Costs, No Contracts, No Commitments and No Minimums. It's easy, affordable and—because you have the freedom to work on your own or with a group from any computer online—it's completely stress-free.

HERE'S HOW IT WORKS:

GETTING STARTED

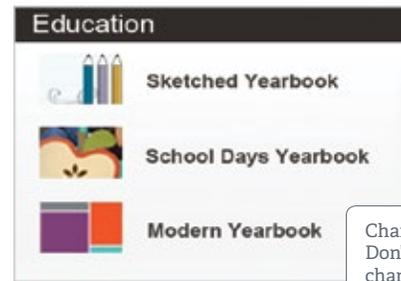

CHOOSE A SHAPE & SIZE

Start by selecting the shape and size of your yearbook. You can easily change the size later with no edits to formatting as long as the shape stays the same.

SELECT A THEME

Choose one of our many pre-designed themes, or select a blank theme for a custom design.

Changing Themes: Don't worry! You can change your theme anytime throughout the creation process.

CUSTOMIZING IN THE EDITOR

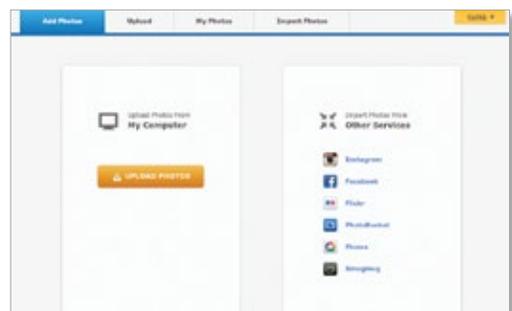

ADD FACULTY, PARENTS & STUDENTS AS CONTRIBUTORS

Create your yearbook as an individual or as a group with password-protected access to our easy-to-use online editor. You can add contributors to the yearbook project anytime without sharing your login and password.

UPLOAD IMAGES

Upload pictures individually or in bulk from your computer, or add them directly from photo storage websites like Facebook, Picasa, or Flickr.

CUSTOMIZE YOUR PAGES

Choose a background and layout, then drag and drop your photos. Here you can edit photos, play with type, and create special effects right in your project. If the yearbook pages were created in a different program such as InDesign, you can upload your custom page into the Mixbook Editor.

ADD ONE-OF-A-KIND DESIGN ELEMENTS

Get creative with stylish design elements. Choose from over 1,000 pre-made images, or add your own school mascots, insignias, and icons to give each yearbook page your personal touch with stickers.

Custom Stickers: Sticker images are a great way to build custom pages that show off your creativity. Upload your own custom design under "Browse Stickers."

ORDERING AND SHARING

PROOF YOUR YEARBOOK

Review each page for spelling and image quality, making sure that all images are within the cutoff line on each page. At Mixbook, we provide a free digital proof; a hardcopy proof is also available upon request.

Privacy Settings:
For any Mixbook project, you can change the settings to make a project viewable to everyone, only friends, or only those invited.

PLACE YOUR ORDER

We offer Volume Discounts for Educators and have dedicated education specialists ready to answer any questions you may have. Contact us at www.mixbook.com/edu.

SHARE A SNEAK PEEK ONLINE

Now that your yearbook is complete and ready to be shared, you have the option of sharing it—either to everyone or a select few. Or you can keep it under wraps and enjoy the excitement of the big day when yearbooks are passed out!

Yes! It's that easy to create a completely personal, memorable, collaborative yearbook. In fact, once you go with Mixbook, any other method for making a yearbook will seem like ancient history—or at least so two semesters ago.
